

Krzysztof Jarończyk

About me

I'm a 3rd year IT Student with a real passion for coding.

I love learning new things and getting better at what I do.

In 2023 together with my team we took second place at the Kościuszkon Hackaton in Cracow.

I approach challenges as opportunities and set goals to overcome them.

My motto is "Planning without action leads to failure. Set a goal and go for it."
